Research & Teaching Experiences

Research Assistant — Prof. Justin Blann — Georgia Tech Scheller	03/2025-05/2026
- Collected data from SEC EDGAR, Revelio Labs, and other databases; automated high-volume data extraction using Python - Cleaned and analyzed large datasets using Python, ensuring data accuracy and consistency - Optimized data processing by implementing Python parallelized algorithms on a supercomputer, significantly improving efficiency - Interpreted analytical results and drew logical, data-driven conclusions to support research findings - Documented data processing steps and analysis procedures in detail to ensure reproducibility - Conducted exploratory data analysis on raw data from SEC EDGAR and presented key findings to the research team	
Research Assistant — Prof. Maria Loumioti — UT Dallas Naveen Jindal	07/2025-10/2025
- Conducted data cleaning and validation of over 14,000 firm-name records and over 20,000 nonbank lender records - Verified firm-level and subsidiary relationships to enhance the precision of matched datasets - Conducted qualitative classification of global sustainability-related loan stories by ESG positioning to facilitate data verification	
Research Assistant — Prof. Xiumin Martin — WashU Olin	02/2020-11/2020
- Collected, cleaned, and integrated datasets on PPP loans, COVID-19 lockdowns, and borrower characteristics from sources including Bloomberg, FACTIVE, and SEC filings - Compiled historical filing dates (10-K and 10-Q) from Moody's Industrial Manuals and employment data on stock market analysts - Gathered user behavior data of Investor Relations Officers from Bloomberg to support preliminary project exploration	
Project "Verification of Goodwill Valuation, Impairment and Its Rationality for Listed Companies between China and America" (Awarded the <i>National-level Undergraduate Training Program for Innovation and Entrepreneurship</i>)	04/2017-04/2018
- Supervised by Prof. Yuju Li, Beijing Jiaotong University - Funded by the Ministry of Education project "<i>Research on Enterprise Resource Value and Goodwill Change Report and Its Application</i>" - Co-authored and published papers in Chinese journals, including one recognized with the <i>Undergraduate Annual Excellent Paper Award</i>	
Teaching Assistant — ACCT 2610: Principle of Financial Accounting — Prof. Zawadi Lemayian	01/2020-05/2020

Professional Experiences

Ernst & Young LLP — <i>FAAS Senior Consultant</i> — Atlanta, GA	11/2023-06/2026
- Advised financial services clients (including insurance companies, banks and fintech firms) on accounting, controls, and regulatory matters - Delivered projects on purchase price allocation, control redesign, financial optimization, reinsurance accounting, and audit readiness - Researched complex accounting standards, prepared technical memos, and developed illustrative guidance for non-routine transactions - Conducted walkthroughs, benchmarked practices, and provided tailored recommendations to management - Supported business development through proposals, budgeting, independence checks, and setup while monitoring project economics - Built strong client relationships and coached junior staff, fostering technical expertise and professional growth	
PricewaterhouseCoopers LLP — <i>Assurance Experienced Associate</i> — Atlanta, GA	12/2022-11/2023
- Audited asset and wealth management clients, focused on complex areas such as management fees, incentive fees, portfolio valuations, and investment waterfall allocations - Planned and executed audit procedures for new and existing clients, ensuring compliance with regulatory standards and firm methodology - Served as a key client contact, addressing inquiries, coordinating support, and maintaining strong working relationships	
BDO USA LLP — <i>Assurance Associate</i> — Cincinnati, OH	04/2021-12/2022
- Audited clients in manufacturing, retail, and hospitality, gaining broad exposure to diverse business models and reporting practices - Assessed risks and evaluated internal controls to design targeted audit procedures and ensure compliance with US GAAP/IFRS - Planned and executed audit fieldwork, tested financial statements line items, analyzed accounting estimates, and proposed adjustments - Utilized Excel, SAP, and IDEA for data analytics, enhancing efficiency and accuracy in audit testing	
Bank OZK — <i>Internal Audit Staff</i> — Little Rock, AR	09/2020-04/2021
- Performed financial, operational, compliance, and SOX readiness audits across business units, systems, and branch operations - Tested design and operating effectiveness of internal controls, identified deficiencies, and recommended remediation - Supported audit planning by analyzing data to determine scope and key risk areas
